

Financial Agreement & Advanced Beneficiary Notice

Maestro Healthcare enjoys offering extended visits, combining services such as psychotherapy and psychopharmacology to improve outcomes as well as offer a more efficient model of care. In order to do this, it is important to understand we need to collect payments in a timely manner for services offered as well as fees that have been applied to your account. The guarantor listed on file will be the party legally and financially responsible for the account. This is usually the patient, but can be a parent, guardian, or another entity such as an employer. In the case of the treatment of a minor, only one parent will be listed as we cannot split responsibility.

We accept most major credit cards, checks, or cash. We ask that a credit card be kept on file and up to date. We will process payment on the card for services rendered or to provide payment for charges to your account for balances due. We will only charge your card for services provided or fees discussed in this agreement.

For all missed appointments or late cancellations, we will charge the card on file generally by the end of the respective day or within 24 hours of the visit, however this is not guaranteed and can be at a later time.

Assignment of Benefits

The assignment of benefits authorizes the practice to file the insurance claim, accept payment from the insurance carrier, and collect patient balances directly from the patient and/or guarantor. The Medicare lifetime beneficiary claim authorization gives the provider permission to file claims on behalf of a patient to Medicare.

For those health care providers who accept assignment, I hereby authorize any insurance carrier with whom I have a policy to pay directly to that provider any benefits of any policies of insurance to those health care providers who have rendered services to me and who accept such assignment.

Information about me that is necessary to substantiate my insurance claims may be released by the health care provider involved in my care.

Financial Responsibility

I agree to pay all charges that are not paid in full by assigned insurance. If such amounts due to the health care providers are not paid after reasonable notice, that account shall be deemed delinquent and a service charge might be added to the amount due. In the event that I default on payment of my account, I agree to be responsible for collection fees and interest due on amounts in default.

In the event of missed or late cancel appointment, there will be a fee. A late cancel is considered less than 24 hours in advance. Please understand it is your responsibility to notify our office and you must receive confirmation of our receipt of your communication.

Medicare Lifetime Beneficiary Claim Authorization

I request that payment of authorized medical benefits be made either to me or on my behalf to Maestro Healthcare, LLC for any services furnished to me by the provider. I authorize any holder of medical information about me to release to the Center for Medicare and Medicaid Services and its agent any information needed to determine benefits or the benefits payable for related services.

I understand my signature requests that payment be made and I authorize release of medical information necessary to pay the claim. If other health insurance is indicated on item

9 of the CMS-1500 claim form or elsewhere on the approved claim form or electronically submitted claim, my signature authorizes release of information to the insurer or agency shown. In Medicare assigned cases, the provider or supplier agrees to accept that charge determination of the Medicare carrier as the full charge and the patient is responsible only for the deductible, co-insurance, and non-covered services. Co-insurance and deductible are based upon the charge determination of the Medicare carrier.
